Shelley & Bonnie – Concerned about the amount of drug and alcohol incidents happening at school
Stacia mentioned that the incidents were being addressed right away and mentioned that if our kids were witnessing anything they had to tell someone right away. If they were worried that they would get caught that they could do it by passing a note to any staff member or talking to any staff member and they would intervene immediately. She also mentioned that there had been 4 suspensions that week, are checking the bathrooms 12 times a day and the B-wing bathroom door is being locked whenever an adult isn't available to monitor it.
